Note: Edited previous formula to more accurately identify new graduate students in 2023.

*Starting in 2022 we began removing CEU units from credit counts. For all previous years non-degree students with CEUs were only included if they were taking at least one credit-based course.

**Starting in Spring 2020, the Metropolitan Tuition Policy (MTP) territory was expanded to include all of New England in addition to the New York City Metropolitan Area; the category was renamed "Northeast Neighbors" (NEN). Therefore, many students who were previously placed in the Out-of-State category are now counted in the MTP/NEN category. This change accounts for some of the decline in the Out-of-State category between 2019 and 2020.

***Students are placed in schools based on their first majors only. Students with intended majors are included in the school of their intended majors.

****The Computer Information Systems (CIS) program has moved back to Business from Arts & Sciences; therefore, CIS majors are once again included in Business beginning in Spring 2024.

^"Undeclared" includes only students remaining in the old "Undeclared" category. Students in "Exploring" majors are included their respective schools.

†New Non-Degree students were previously included in returning as they were not tracked, due to not being formally admitted.
