

**Report of the Committee on General Education
to the
Undergraduate Curriculum Committee
February 21, 2020**

1. COGE met on January 22 and approved the conversion of HIST 265 to Connections.
2. COGE began a discussion of the size and shape of the current general education program in the context of student completion and transfer admissions. The current General Education program was implemented in Fall, 2012, and though it is still treated as the *New* general education program in records materials, it is time for the program to be revisited in the context of the current educational climate.

Respectfully submitted,

James G. Magyar, Chair
